Vol. 29, 1985

University of Waterloo, Ontario Canada  
Birkhäuser Verlag, Basel · Boston · Stuttgart

## Editorial Office

University of Waterloo, Faculty of Mathematics, Waterloo, Ontario, Canada N2L 3G1.

*aequationes mathematicae* is published by the University of Waterloo and Birkhäuser Verlag.

The journal will publish papers in pure and applied mathematics in general but, in particular, papers on functional equations, combinatorial and numerical analysis. The languages in which papers will generally be accepted are English, French, and German.

Types of manuscripts that will be considered for publication include original research papers, problems and their solutions, expository papers and, as short communications, self-contained abstracts of papers which have been accepted for publication either by this or some other journal with a referee system.

Manuscripts of papers should be submitted to the Editorial Office or to a member of the editorial board. Authors of papers should send the original and two additional copies. Since it is the policy of the journal to publish in advance short communications of all results it accepts for publication, authors should include with the original submissions a self-contained abstract of their paper of length 25–100 lines, which contains a precise statement of the results in the paper. Authors should also include an AMS classification for their paper.

## Subscription information

This journal appears in 2 volumes of 3 issues each (6 issues per year) Annual subscription: SFr. 278.–, DM 320.–, US\$ 148.00 postage not included.

Single issue: SFr. 52.–, DM 60.–, US\$ 27.00 postage not included. Subscription orders should be placed with Birkhäuser Verlag, P.O. Box 133, CH-4010 Basel/Switzerland, or through bookseller or subscription agency.

Additional charges for airmail to other countries are available on request. Claims for undelivered issues must be made promptly – at the very latest, immediately following receipt of the issue succeeding the missing number. Annual subscriptions cannot be cancelled before the fixed date of expiration. Cancellations of standing orders must be effected 2 months before the end of the publishing year.

## Copyright

It is a fundamental condition of publication that submitted manuscripts have not been published, nor will be simultaneously submitted or published elsewhere. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the publisher if and when the article is accepted for publication. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microform or any other reproductions of similar nature, and translations. Photographic reproduction, microform, or any other reproduction of text, figures or tables from this journal is prohibited without permission obtained from the publisher.
